Today's video is about

Pre-filtered selection

using pyRevit

Today we will be using...

Software platforms

- Autodesk Revit 2020
- Notepad ++ (v8.4.7)

Third party add-ins

- pyRevit (4.8.12.22247)

Programming languages

- Python (IP2.7)

Essential pre-viewing

If you haven't seen these, I may skip over some things you're not familiar with.

Python 101

- 10 quick Python videos
- Establish the fundamentals

pyRevit

- How to install and set it up
- Make a basic toolbar

Python 101

What we will cover

Preparing the tool

- Initial setup
- Bundle configuration
- Bundle context

Developing the tool

- Making an ISelectionFilter
- List selection UI's
- Selecting objects

Let's dive in!

And make our own solution!

Am I talking too fast?
Slow me down if you like!
